**GENERAL WARNINGS**

- The user of this product should be thoroughly familiar with the use and care of this product.
- The user should carefully study the manual before making any attempt to use this product clinically.
- Before each procedure carefully inspect the LED system to ensure proper maintenance.
- Use care not to point the light directly at the eyes during operation; patient use of safety glasses is recommended.

**FIRE HAZARD:** DO NOT PLACE THE LED LIGHT UNIT ON ANY FLAMMABLE OBJECT WHILE IT IS OPERATING.

**WARNING:**

- The LED light unit will get hot when left on. Handle with care. It is recommended to turn off the LED before handling LED light or making any adjustments to it. Do not disassemble, modify or short circuit.
- Avoid direct light contact with the eyes.
- Avoid direct light irradiation in patient’s eyes; patient use of safety glasses is recommended.

Battery Charger & AC Power Adapter

- Use only the Battery Charger & AC Power Adapter supplied with this system.
- Do not disassemble, modify or short circuit
- Do not leave in hot places, such as inside a car or outside in hot weather.
- Do not allow to get wet

**WARRANTY**

SurgiTel’s mission is to provide the best products for your Vision & Ergonomics at Work. To support this commitment SurgiTel® warranties all of its products.

SurgiTel® strives to make the best loupes and light systems available. Please inspect and try on product immediately upon receipt. If you notice any issues, contact our customer service department at 800-959-0153.

For both warranty and out-of-warranty issues, contact SurgiTel® Customer Service regarding repairs.

Warranties vary by product. Check [www.surgitel.com/warranty](http://www.surgitel.com/warranty) for more details. Check [www.surgitel.com/help](http://www.surgitel.com/help) for up to date care information/instructions. Please keep up to date on care information/instructions, as warranties can be affected if product is misused.

**USER INSTRUCTIONS**

SurgiTel®

a division of General Scientific Corporation
77 Enterprise Drive • Ann Arbor, MI 48103-9503
E-mail info@surgitel.com • www.surgitel.com

Doc No. 254565
**CLASSIFICATION**

- Protection against electric shock: Class II including AC/DC Adapter.
- Applied parts: No applied parts.
- Protection against harmful ingress of water: ordinary IPXO.

---

**MAINTENANCE**

Storing the LED system in a safe place will prolong the life of the unit. The following guidelines will help in sustaining the LED systems useful life:

- Keep the optical face on the light unit from touching hard surfaces which may cause scratches on the surface. Scratches on the surface will diminish the light quality.
- When cuts or punctures are visible on the system’s light cord, the wireless LED system is no longer safe to use; it should be taken out of service immediately.
- Protection against harmful ingress of water: ordinary IPXO.
- Protection against electric shock: Class II including AC/DC Adapter.

**CLEANING**

*IMPORTANT*

- Do not immerse in water or any liquid; wipe down with damp cloth. Do not use HOT or COLD water; using “room-temperature” water is acceptable.
- Avoid using running water and disinfectant sprays on or near open slots located on light unit. Carefully wiping with damp cloth is ok.
- Do not use disinfectants containing glutaraldehyde, iodophors, ammonia, alcohol, or ethanol.
- Do not autoclave

Disinfection: Use of quaternary ammonium compounds is ok. Dry thoroughly. For a full list of recommended disinfectants, visit [www.surgitel.com/help](http://www.surgitel.com/help)

**RECOMMENDED** when using light-cured materials with the LED Light

- Atmosphere pressure range 50 to 106 kPa
- Relative humidity range 10 to 100%
- Ambient temperature range -40 to 70°C
- Atmospheric pressure range 70 to 106 kPa

**OPERATION**

- **Charge Time (Battery Pack) = approximately 2-3 hours**
- **Maximum continuous operation at full load is approximately over 8 hours**
- **Attach the LED light to loupes or glasses using an appropriate adapter**
- **Use the included garment clips to route the cable appropriately**
- **LED cable inlet (1):**
  - Provides power to LED light unit
  - Power switch (2): Rotate to turn light off/on
  - **Light intensity (2):**
    - Adjust the position of the knob to adjust the light level
  - **Rechargeable inlet (3):**
    - Recharges the battery with the aid of an AC charger
  - **Battery charge level indicator light (4):**
    - GREEN = fully charged, RED = charging,
    - FLASHING RED = Error

**LED Extension Cable Connection**

Make sure the cable connection is completely secure as shown in **Figure 3**. Figure 1 and Figure 2 both show a connection that is insecure. Even if you hear or feel a click when connecting, and there is no metal connection showing, the connection may still be loose. Be sure the connection is as tight as possible. Ideally, you will feel two clicks when the connection is completely secure.

**ATTACHING LIGHT ADAPTER TO LOUPE**

- Attach the LED light to loupes or glasses using appropriate adapter

**ADJUSTMENTS**

- Attach light cord to frame by sliding both o-rings onto temple arm, as shown

**CABLE ROUTING**

- Use the included garment clips to route the cable appropriately
- Attach light cord to loupes or glasses using appropriate adapter

**TRANSPORT & STORAGE CONDITION**

- **Ambient temperature range -40 to 70°C**
- **Relative humidity range 10 to 100%**
- **Atmospheric pressure range 50 to 106 kPa**

---

**Warning:**

Battery Control Pack Belt Clip

- Improper use of the belt clip can lead to product damage. Refer to photos shown to the right for correct use.

Battery Control Pack Placement

- Positioning the battery pack incorrectly can lead to belt clip damage. Refer to the photos shown to the right for correct placement.
